- jQuery
- CI/CD
- Python (1 year) + Django
- React ^16 + Redux
- Redis
- RabbitMQ

LANGUAGES

- Polish - native
- English - B2

I agree to the processing of personal data provided in this document for realising the recruitment process pursuant to the Personal Data Protection Act of 10 May 2018 (Journal of Laws 2018, item 1000) and in agreement with Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation).

Aleksander Zak

PHP Developer

PROJECTS

SimpleStore June 2023,
<https://github.com/olek1305/SimpleStore>

SimpleStore is my first Laravel project, showcasing my web development skills. I was aiming for fundamental CRUD operations, gaining hands-on experience in building a basic e-commerce platform.

Framework: Laravel, Bootstrap

Laravel-qa January 2024
<https://github.com/olek1305/laravel-qa>

During my learning journey, I undertook the Laravel-qa project on Udemy. Although the course provided a solid foundation, I encountered challenges due to differences in Laravel versions. Undeterred, I independently adapted the codebase to newer Laravel versions, honing my problem-solving skills. This hands-on experience not only deepened my understanding of Laravel but also showcased my ability to independently navigate and implement solutions in dynamic development environments.

Framework: Laravel, VueJs, Bootstrap

larazillow February 2024
<https://github.com/olek1305/larazillow>

The goal is to insert offers to sell an apartment, look at photos and determine how much to offer

Framework: Laravel, VueJs, Tailwind, Inertia.js, Ziggy

AbexGuilds April 2024
<https://github.com/olek1305/AbexGuilds>

The project is only for the game AFK Arena. You can manage not only one guild, but also multiple guilds, add people to the list with injury records on abex from multiple seasons, notebooks, transfers to another guild. Can check stats (count users, notes, kick, ban, Guild dmg totals depend on the season) Activity is like class register, you mark these players whether they have farmed on the day or completed the farm, so that you do not leave out these players.

Framework: Laravel, VueJs, Tailwind, Inertia.js, Ziggy

Freshly-Ecommerce August 2024
<https://github.com/olek1305/Freshly-Ecommerce>

Large project shop, E-Commerce, like Amazon

Framework: Laravel, Bootstrap, YajraBox
